

Attachment 2: Key Tyrewise Programme Information for Participants

WHAT AM I? 	WHAT DOES THIS MEAN? 	DO I HAVE TO PAY? 	DO I GET PAID BY TYREWISE? 	ANY SMALL PRINT I SHOULD KNOW? 
Tyre Importer 	You are an organisation which imports tyres into NZ. <ul style="list-style-type: none"> - New tyre importers - Used tyre importers (includes casings) - New vehicle importers - Used vehicle importers 	YES 'The Tyrewise Fee' is captured for all tyres at the first point of importation or registration. <ul style="list-style-type: none"> - Fee for loose tyres included in customs payments - Fee for tyres on all vehicles collected by NZTA at first registration 	NO	All importers would be mandated to contribute to an accredited stewardship scheme (such as Tyrewise) under the Waste Minimisation Act 2008 Priority Product legislation. Importers may be able to claim rebates if the tyres they import fall outside of eligibility criteria for a stewardship programme (e.g. mobility scooter tyres).
Consumer 	You are 'Joe Public'. When you buy new tyres you need to get rid of the old ones. OR You may have old tyres for other reasons that you need to get rid of.	NO The cost of the programme is built into the price of all new tyres This is called 'The Tyrewise fee'.	NO You do not get any money for recycling your tyres.	Landfills will no longer accept tyres. You must recycle your tyres via a registered collection site, or you can leave them with the company that fitted your new tyres. AND Any inappropriate dumping of tyres will result in fines and/or prosecution.
Generator 	You are either: A tyre seller and/or fitter who takes old tyres when you sell new ones OR A large user of tyres & your tyres are replaced on-site	NO Any tyres that you take from your customers are collected for free.	NO You should not charge customers for taking their old tyres. (but remember you don't have to pay to have them collected either)	If tyres are a Priority Product this means that you will need to register with Tyrewise as a condition of selling/fitting tyres. If you sell or fit any tyres, you MUST be prepared to take the used tyres from your customer for disposal. These tyres can either be kept by you for collection, or taken to a Collection Site . Your may be asked by Tyrewise to provide auditable reports on the volume of tyres that you accept.
Collection Site 	You are a place where Consumers and/or Generators can drop off unwanted tyres if they aren't purchasing new ones (such as a transfer station)	NO Any tyres that you collect at your site are picked up for free.	YES Collection sites are paid a nominal service fee by Tyrewise to act as aggregation points for tyres to be collected. Payments are on a sliding scale (Very busy sites would get paid more than small sites)	You must be registered with Tyrewise as an approved Collection Site . Your may be asked by Tyrewise to provide auditable reports on your collection volumes. A Generator could also act as a Collection Site and aggregate tyres for Customers and other Generators .
Transporter 	You collect tyres from Generators and/or Collection Sites and deliver them to Processors	NO All tyres are collected at no charge to the Generator or Collection site .	YES Tyrewise pays you for the tyres you deliver to a Processor .	You must be registered with Tyrewise as an approved Transporter . So you get paid, you must have a contractual relationship with a Processor / Manufacturer to accept the tyres. Your may be asked by Tyrewise to provide auditable reports on your transported volumes.
Processor 	You transform the tyres in some way so that they can be put to a good end-use.	YES You may pay Transporters to deliver the tyres you need. (This is for you to negotiate - Tyrewise does not get involved.)	YES In addition to money you make from selling your products, Tyrewise makes a payment per kg of tyres processed and supplied/sold to a Manufacturer . The level of payment depends on what your tyre derived product is eventually used for.	You must provide evidence of the Manufacturers' end-use for the processed material in order to receive payments from Tyrewise . Your reports may be subject to audit by Tyrewise in order to ensure the subsidy is being paid correctly.
Manufacturer 	You purchase tyre derived products from a Processor to use in your business (such as for fuel or as an ingredient for a new product). NOTE: If you purchase whole tyres directly from a Transporter you would be classified as a Processor as well as a Manufacturer .	YES Typically you would pay a Processor a market price for the products. (This is for you to negotiate - Tyrewise does not get involved)	YES Tyrewise pays you for the tyre derived product you use in manufacturing.	You will need to provide Tyrewise with evidence of what you use the tyre derived products for. This is because it affects the payments made to you by Tyrewise .
